

Intro to Programming Test One

Flow Charts, Pseudo-code, and JavaScript Name_____

1. Write the Pseudo-code and JavaScript for this flowchart

2. Write the Pseudo-code and JavaScript for this flowchart

3. Draw the Flowchart for the following JavaScript

```
var month = prompt("What month is it?", "September")
while(month != "September"){
    alert("No its September");
    month = prompt("What month is it?", "September")
}
alert("Right its September");
```

4. Write a Flowchart, Pseudo-Code and JavaScript for the following program.

The program should ask the user for a whole number (0-10) and only needs to run once.

- If the number entered by the user is greater than 5 output "Too High".
- If the number entered by the user is lower than 5 output "Too Low".
- If the number entered by the user is equal to 5 output "Just Right".
